INTRODUCING **SECURE PRINTING** &
ANTI-COUNTERFEIT TECHNOLOGIES

SECURE PRINT SOLUTIONS

Our unique, in-line multi process print system combines intaglio printing, holographic application, rotary screen, flexographic printing, numbering, and imaging of variable data in a cost effective single-pass operation. This multiple print system allows your customers to select and integrate a wide choice of specialty inks, taggant markers, barcodes and other overt and covert security technologies into their labels and documents.

Our team has an intimate understanding of how products, packaging, marketing, supply chain and consumer awareness all interact with each other to ensure that your client's brands and assets are effectively protected. With our international presence, DLSsecurity™ provides this protection to both commercial operations and governments worldwide.

SECURITY PRODUCTS TO HELP BOTH COMPANIES & GOVERNMENTS *PROTECT* THEIR ASSETS.
